4 rules that make it work

- Go out after every wake-up, meal, play session and nap.
- Use the same spot and the same word every time (for example, "go potty").
- Praise and treat within 2 seconds of finishing. Timing is everything.
- Accidents happen. Clean with an enzyme cleaner and never punish.

Times are a starting point. Adjust to your puppy's routine. General tips only, not a substitute for advice from your vet.
